

March 2019

Dear Valued Customer,

As you may be aware, we are facing a worldwide shortage of raw material: Nylon 66, the essential key component for our Nylon Cable Tie and Gland range. For these 2 ranges, BizLine prices have increased this year from the 1st of February (average +40%).

On all other items, there has been some increases and some decreases. The average changes across non-nylon based items is 5%.

We continually strive to provide you pricing that enables you to be competitive in the Australian market. We have kept the changes to what we deem necessary to continue to provide you with the quality service and products you currently receive.

We will continue to keep you advised of significant developments.

Yours Sincerely,

Noemie Presse

Export Sales Manager Oceania
