RE: NOTIFICATION OF PRICE CHANGE – EFFECTIVE 3 FEBRUARY 2020

Dear Valued Customer,

Please find attached our new price list, effective Monday February 3, 2020. This new price file represents price reductions across key product lines in our LAN range and a small increase across other products where necessary due to changed market conditions and a continued weakening of the Australian dollar against the US dollar.

The price file also includes pricing for several new product ranges including:

- Expanded Garland Cat6A patch lead range
- Garland PreTerm Tight Buffer Fibre cable range

Prices for the new product ranges are active and available immediately.

If you would like us to supply this price list in a compatible format for your specific system or would like assistance with loading this price file, please contact our data file administrator, Mark Walls, at mark.walls@madisontech.com.au with your requirements. If you wish to send your current system data to Mark, he will also be happy to assist you in updating your database to remove any obsolete products or incorrect coded products.

We are committed to delivering our customers with the right solutions for their needs, so if you have special requirements or project enquiries please give us a call on 1800 66 99 99.

Regards,

Steve Mannion
