

08 February 2021

Price List Change Notification Effective March 10, 2021

Dear Valued Customer,

We would like to inform you of a pricing adjustment that will be implemented by ABB (Electrification) on **March 10, 2021**. Specifically:

- a price increase of 2% across the majority of our low-voltage product ranges
- majority of Emergency Lighting portfolio **will not** have any price change.

This price adjustment will affect only ABB direct account customers. For removal of doubt, our medium voltage product range is not in the scope of this price adjustment.

For customers that are using the ABB Business Online service (cBOL) your prices will automatically update on **March 10, 2021** and be available in your account. For customers wishing to set up an ABB Business Online account please contact your local sales representative or send an email to au-ep-sales@abb.com requesting access.

If you wish to receive a copy of your new price file, please contact your local ABB sales representative to allow you time to upload the data to your systems and to address any queries you may have in relation to the new file and pricing of products not included in the file.

Should you have any questions regarding this price adjustment please contact your local ABB sales representative or call our Electrification Customer Service Team on 1800 60 20 20.

We thank you for your continued support to ABB and we look forward to growing our business together in 2021 and beyond.

Yours Sincerely

Mario Macri
National Sales Manager
Electrification business ABB Australia
