

7 June 2021

Notice of Price Adjustment

Cabac as part of the Legend Group has implemented a range of initiatives, along with our local and international suppliers, to absorb and mitigate cost increases affecting our business where possible. However continued and ongoing cost pressures in our international supply chain on commodity raw materials and the international freight market has necessitated a price review of our current Cabac offer.

In line with our trading terms and in response to changing market conditions we wish to advise of our intent to adjust our pricing on an average of **6.5%** for the affected products to become effective on the **1st of August 2021**. A full and comprehensive price file will be sent on the **1st of July 2021** with the adjusted pricing to allow thirty (30) days for the new pricing to be loaded before it will be applied in the field.

Key cost drivers affecting this decision include:

Your continued support and understanding ensures CABAC can continue to deliver on its promise of quality and reliability. If you have any questions in relation to this notification, please contact your local account manager or customer care.
