

Friday, 3 September 2021.

Dear Trade Partner,

Due to continued and unsustainable freight cost increases and the shortage of some components, it has become necessary for SAL to review our Trade Price List.

A price change will be effective **Friday 1st October 2021** and apply to all orders despatched after this date.

Whilst some products have increased in cost, most products remain unchanged,

Once finalised, a new electronic price file will be provided to you.

Thank you for your ongoing support of SAL.

My contact details listed below are available to you should you have any questions in the meantime.

Regards

John Attlesey
