

Price rise notification

February 3, 2022

To our valued customers,

Globally with disrupted supply chains, the skyrocketing cost of freight, the soaring price of components coupled with rising inflation has created business cost increases which are beyond our control.

Effective from April 1, 2022, OMRON is increasing prices by an average 8% on most products.

Orders made before April 1, 2022 will be honoured at current prices, so it would be prudent to order soon to take advantage.

Also, we will honour any quotations made during the validity period, normally 30 days.

OMRON greatly appreciates your continued business and support. If you have any questions or concerns regarding the price increase, please do not hesitate to contact us.

Kind regards,

Henry Zhou
Managing Director
Omron Electronics Ltd
