

30th June 2022

Schneider Electric Australia
Price Review Notification Effective 1st August 2022

Dear Valued Customer,

Recent years have seen considerable uncertainty and disruptions that has led to flow on affects experienced by all within our Market.

We have seen a steady increase across several metrics including Raw Material Costs, Freight Costs, Fuel and Energy and ongoing shortages of Electronic Components.

While acknowledging recent changes in our pricing and ongoing implementation of initiatives to offset the dynamics of ongoing inflation, we have still needed to review our current pricing.

We would like to inform you that effective Monday, 1st August 2022, you will see a weighted average increase of 3.2% applied to our full product portfolio.

You will see varying levels of adjustments across our range of offers. The price file accompanying this letter further explains this detail.

For those customers who are already using mySchneider, the new price information will be available to you from your online account once the scheduled price adjustments take effect.

Should you have any queries, please contact your Sales Representative or our Customer Service Centre on 13 73 28.

We thank you for your continued support and ask that you communicate this notification as appropriate.

Yours Sincerely,

A handwritten signature in black ink, appearing to read "Alex Gillespie", with a long, sweeping underline.

Alex Gillespie
