

1 December 2022

EzyStrut Trade Price Adjustment – February 1, 2023

Dear Valued Customer,

Due to the increasing inflationary pressure on operating expenses, reflected in the most recent Consumer Price Index (CPI) figures released by the Australian Bureau of Statistics, trade prices of all finished goods in EzyStrut's product range will increase.

Please accept this correspondence as formal notification that prices across EzyStrut's entire product range will increase an average of 8%, effective February 1, 2023.

This is the first time in the past 12 months EzyStrut have announced a price adjustment, with the last being December 2021.

I would like to thank you for your ongoing support, and assure you of our continued commitment to providing consistently high levels of customer service and competitively priced products.

Please do not hesitate in contacting EzyStrut's Sales Team should you require further information.

Kind regards,

Stephen Taubitz
General Manager
