21 December 2022

Dear valued customer,

We are writing to communicate that Hager Electro Pty Ltd will be applying a price increase to all orders from the **Wednesday 1<sup>st</sup> February 2023**.

The increase has been driven by continuing inflationary pressure on our labour, freight, energy and logistic costs, as well as raw material and component increases. We recognise the impact that the pandemic has had on supply chains worldwide and regrettably, we are unable to absorb the impact.

We also advise that we will be changing conditions around our Minimum Order Values (MOV) effective from the same date. These conditions were last changed in 2018, refer below for more details;

- MOV increases to \$300 ex GST
- Orders > \$300, freight is Free into Store (FIS)
- Orders < \$300, incur a \$50 small order processing fee

Updated pricing files will be sent to you in the week starting Monday 16<sup>th</sup> January 2023. If you have any questions or feedback, please speak with your account manager.

We thank you for your ongoing support and look forward to continuing a strong partnership with you in the years ahead.

Regards,

Hager Electro Pty Ltd
